

### REMARKS

Claims 1-29 and 31-44 remain pending in the current Application. Claims 21, 39, 40, and 43 have been amended, and claim 30 has been cancelled. Applicants submit that the amendments do not add new matter to the current Application. All the amendments herein have been made in order to clarify the claims and not for prior art reasons. Applicants also submit that (1) no amendment made was related to the statutory requirements of patentability unless expressly stated herein, and (2) no amendment made was for the purpose of narrowing the scope of any claim, unless Applicants have argued herein that such amendment was made to distinguish over a particular reference or combination of references.

#### *Specification*

Applicants have corrected the informalities on pages 1 and 12 of the specification, as suggested by the Examiner.

#### Claim Objections

Applicants have amended each of claims 39 and 40 to depend from claim 32 rather than 30. Therefore, Applicants submit that claims 39 and 40 are patentable under 35 U.S.C. 112.

#### Rejection of claims 21-29, 31, and 43 under 35 U.S.C. 103(a)

Applicants respectfully submit that claims 21-29, 31, and 43 are patentable under 35 U.S.C. 103(a). However, the Examiner has indicated that claim 30 would be allowable if rewritten in independent form; therefore, in order to further prosecution and not for prior art reasons, Applicants have amended claim 21 to include the elements of claim 30, and have cancelled claim 30. Therefore, Applicants submit that claim 21 is allowable as indicated by the Examiner. Claims 22-29 and 31 depend directly or indirectly from allowable claim 21 and are therefore also allowable for at least those reasons that apply to claim 21.

With respect to claim 43, Applicants have amended claim 43 to include elements similar to that of claim 30. Therefore, Applicants submit that claim 43 is allowable for at least those reasons that apply to claim 21.

**Conclusion**

Although Applicants may disagree with statements made by the Examiner in reference to the claims and the cited references, Applicants are not discussing all these statements in the current Office Action, yet reserve the right to address them at a later time if necessary.

Applicants respectfully solicit allowance of the pending claims. Contact me if there are any issues regarding this communication or the current Application.
